DEFEND LIFE

Bringing America's Greatest PRO-LIFE Speakers to Parishes & K of C Councils Like Yours!

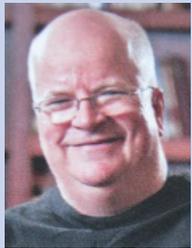

On the evenings of **September 14 & 15** the amazing **Terry Beatley** is available to speak on her book *What if We've (NARAL) Been Wrong? Keeping My Promise to America's "Abortion King"*. After twenty years working in the insurance and investment business, Terry did what feminists had warned her would be most dissatisfying - she became a stay at home mom homeschooling her children for the next eight years. While studying American history, she became perplexed as to how America overcame slavery only to dehumanize another category of people - unborn babies. Terry's quest for answers led her to research and then interview **Dr. Bernard Nathanson**, the doctor once known as **Dr. Abortion King**, who admitted to being a mass murderer after counseling a woman today as NARAL Pro-Choice America. He deeply regretted unleashing the culture of death onto America.

Bernard Nathanson gave Terry a mission: to deliver his personal parting message and teach the strategy of how he used a deceptive propaganda campaign to deceive the American public which ultimately paved the way for the Roe v. Wade U.S. Supreme Court decision. He admitted to stripping the unborn child of all rights and protections. Terry promised that she would make his name, story and mission common knowledge until Roe v. Wade is overturned and young women know the truth. Hosea initiative is one of the ways in which she is working toward that promise.
