Recent Remarks from *ChurchMilitant.com*

Even high-ranking clergy are having to admit the first, overriding reality in the Church today is that homosexual men have infiltrated the clerical ranks and seized control at all levels.

Archbishop Viganò pointed directly to this truth in his first testimony when he correctly labeled it *a homosexual current* within the Vatican.

Cardinal Raymond Burke has come out with it publicly. Even **Cardinal Müller** in Rome admitted it a few days ago when he said, *a homosexual network* was able to wreak havoc in a mafia-like manner in the Church, referencing the whole McCarrick mess.
