Feds Haul Away Pro-Life Activist In Front of His Frightened Children

Mark Houck is a pro-life activist in Pennsylvania and the founder/president of the King's Men (see thekingsmen.org) He has been going to the Planned Parenthood mill known as the Elizabeth Blackwell Health Center in Philadelphia every Wednesday for four hours. On October 15, 2021, Houck was there with his young son and another prayer partner. A male deathscort, 72 years old, was there to rush women inside the mill so that their babies could be killed.

The deathscort took some time to harass the young Houck boy, and had been doing so for several weeks. Mark repeatedly told the deathscort to stop harassing his son. On the day of the incident, the boy walked down to a corner and the deathscort followed him. Houck pushed the deathscort away from his boy. At that, the deathscort pulled a dramatic flop scene then rushed into the mill. All this was recorded by Planned Parenthood's security cameras. Soon thereafter Houck got served with papers. The following winter, there were three different court dates with the District Court of Philadelphia. For the first one, the pro-life attorney couldn't be there.

Mark Houck with his family

The next date the pro-abort attorney didn't show. The judge then said if the pro-aborts didn't show for the third date, that he would throw the case out. The deathscort himself failed to show so the case was indeed thrown out.

That should have been the end of it, but the Department of Justice got involved. They were looking for a possible FACE violation. The video taken by Planned Parenthood showed that to be nonsensical. Pro-life attorneys have a copy of said video. Moreover, the attached

Google-Earth picture also makes a lie of the FACE charge. Any possible corner where the altercation took place is far enough from the mill entrance to render a FACE charge farcical on its face.

That didn't stop the ever-intrepid feds from borrowing tactics from the Nazi Gestapo and springing into action, as it were. On Friday, September 23, in the morning at 7:00 AM, 20-25 armed men barged into the Houck residence. They dragged Houck out in handcuffs in front of his wife and children, pointing their

guns at the family as they did so. When Ryan-Marie asked the feds why they were there, they stated that they intended to arrest Mark. She asked for the warrant, and they told her they “were going to take him whether they had a warrant or not”. Only when Ryan-Marie told them that constituted kidnapping at gunpoint did they produce a warrant.

They took him to the Federal

They put him in handcuffs and leg shackles. They chained him to a table for four hours.

Detention Center at 6th and Market and arraigned him. They put him in handcuffs and leg shackles. They chained him to a table for four hours. Afterwards they let him out on his own recognizance.

If any of this sounds vaguely familiar, it should. Please refer to the May-June 2022 issue of the Defend Life newsletter (in the archive section of the web page). The article in question starts on page 4. Refresh your memories regarding the pro-life activists who engaged in a rescue at the DC mill of Cesare Santangelo on Oct 20, 2020. Armed agents of the Department of Justice burst into the homes of these pro-lifers, also in the wee hours of the morning. They too were let go after putting them through a harangue.

At the time of this writing, legal strategies are still being weighed and considered.

Invasion of the Vultures is Underway

When Roe v Wade was finally relegated to the dung heap of history, it was obvious that Maryland, being the abortionists' mecca that it is, would draw more baby-slaughter cabals to take up abode within its borders. Concurrent with that development is the apparent disappearance of Leroy Carhart from Maryland, probably due to some health constraints. Both of these would serve to make late-term abortions a rather lucrative business in Maryland. Some have already sniffed the easy blood money and are preparing to collect.

Such seems to be the case with the women who recently formed an LLC called Partners in Abortion Care. They have a website: partnersinabortioncare.com. A number of online publications waxed enthusiastic about the new baby-killing venture as they

Morgan Nuzzo and Diane Horvath

could have gotten that bill on the ballot and perhaps have helped save lives. But I digress.

Because of that bill, other medical professionals besides MDs can commit abortions: physicians' assistants, nurse practitioners and midwives are legally empowered to do so. That means both Horvath and Nuzzo can kill babies. Nuzzo sports quite the abortion-tainted resume: Director of Nursing at CARE abortuary in Bethesda (in other words, Leroy Carhart's mill), midwife at DuPont abortuary and an RN stint at the old DC Planned Parenthood location.

Horvath for her part was an abortionist at Whole Woman's Health on Bel Air Road in Baltimore until last December. Prior to that, one of her stints was at Planned Parenthood at its former location in Silver Spring, MD. At that place, she was involved in a botched

abortion in January of 2016. The patient filed suit, naming her as a co-defendant. See <https://abortiondocs.org/wp-content/uploads/2018/01/Horvath-Cosper-Diane-2016-Doe-v.-PP-Silver-Spring-MD-PP-of-Metro-Washington-DC-Diane-Horvath.pdf>. I do not know the outcome of that legal action.

She was involved in a botched abortion in January of 2016. The patient filed suit, naming her as a co-defendant.

So just where is Partners in Abortion Care located? The various articles simply divulged a College

highlighted the two foundresses, Diane Horvath and Morgan Nuzzo. Horvath is a doctor while Nuzzo is a certified nurse midwife. Recall that on July 1, HB 937, the "Abortion Care Access Act" went into effect after Governor Hogan's veto was overridden. We had attempted to petition that bill to referendum and came close to doing so. Had the bishops allowed us access to church lobbies to collect signatures, we

A Look at the 2022 Maryland Primary Elections

Disclaimer: What is written below reflects the opinions of the author; Janet Baker, and not necessarily those of Defend Life, Inc.

Maryland's primary elections took place on July 19, so they are come and gone. I do not believe it will endanger any 501(c) 3 status to point out that the Dems put the advancement of abortion in their party platform, rendering them deadly to unborn children. The GOP platform acknowledges the

All in all, the RINO crowd in Maryland got their comeuppance that day.

right to life of the preborn; some might say that's only lip service, but at least they do that much.

All in all, the RINO crowd in Maryland got their comeuppance that day. Solid conservative Dan Cox trounced Kelly Schultz to become the GOP nominee for Maryland governor. This was a direct rebuke to Larry Hogan. In standing against the mask mandates two years ago, Dan Cox was slated to speak at a rally in western Maryland. He was threatened with arrest by the Maryland State Troopers if that talk continued. The troopers are under Hogan's authority. He has also been solidly pro-life. Sadly, the same could not be said for his opponent, Kelly Schultz. While she started her career as pro-life, she back-peddled in anticipation of

the gubernatorial race. This is one example of trying to please so many people that in the end, no one is pleased. More to the point, she threw unborn children under the bus. Did she think she would make political gains? If so, that strategy flopped, both politically and morally.

Michael Peroutka will go to the general election for the position of Attorney General. I know of no shortcoming on the part of his opponent Jim Shalleck and supported the latter when he ran for State's Attorney in Montgomery County. I believe Peroutka will bring a better sense of adherence to the Constitution in enforcing law.

Neil Parrott will face David Trone for the MD District 6 seat in the US House of Representatives. Bearing in mind that the district maps have been improved to remove at least some of the gerrymandering,

Parrott has a real chance of winning the general election. Besides him and Andy Harris of District 1, I haven't a sense of the pro-life bona fides of the GOP candidates for the other US House seats. Suffice it to say that we need the GOP candidates to win, if for no other reason than

Remember that the Dobbs decision put the abortion struggle back to the states.

to help remove the Speaker's gavel from Nancy Pelosi's hands. Never was there an abortion over which she did not gloat. Moreover, this pro-abortion woman, as House Speaker, is third in line for the US Presidency.

People at the polls

In Montgomery County, Marc Elrich faced quite a few opponents as he fought to hold onto his position as County Executive. One of them, David Blair, surpassed Elrich by a very narrow margin according to the MD Board of Elections site. But now that mail-in ballots have been counted (cough!) Elrich squeaked to a narrow victory. Recall that shortly after the Dobbs opinion leak, Elrich moved to fund abortion in Montgomery County to the tune of one million dollars (of our tax money) and was endorsed by Pro-Choice Maryland. Reardon Sullivan won the GOP nomination for that office.

Now that we have a decent slate of candidates in Maryland, we'll have to work to put them in office this November. Remember that the Dobbs decision put the abortion struggle back to the states. That is why these local elections matter just as much as do the federal elections.

Park location. Specifically, they are at 7305 Baltimore Avenue, Suite 107, in College Park. Baltimore Avenue is Route 1. They are on the east side of Route 1, across the street from the UMD chapel, a little south of Ritchie Colosseum and Frat Row. The surrounding roads intersecting the office complex are Hartwick Road to the north and Calvert Road to the south.

For the past few months they've both been busy, weaving their little web of death. The website indicates that the mill isn't yet open at the time of this writing. You see, it's quite an undertaking to open up a baby-killing mill. Working capital doesn't come easily. They had to open some sort of "go-fund-me" type of operation to get donations. God have mercy on the souls who actually donated to that. To cut costs, they purchased old equipment from a Georgia

abortuary that closed after Roe went kaput. Georgia's gain is our loss. Nuzzo had the stuff transported to Maryland in a U-Haul truck. One of the pieces of equipment is an ultrasound machine. Think about it – a sensitive piece of machinery bouncing up I-95 in a U-Haul truck. I'll leave it at that. Another question comes to mind – just how old is all this second-hand junk that will be used in the commission of baby-murder? Inquiring minds would like to know. I certainly hope that Maryland's Office of Health Care Quality asks similar questions as they consider the granting of a license to this abortion mill.

Let local prolife activists, both on campus and nearby, take on the task of crimping the baby-slaughter that will occur at this "Partners" place, should it open. I understand that Horvath considers herself to be a "former Catholic". Pray that she and her associates repent.

105th Anniversary of the Miracle of the Sun

Dear Friend of **DEFEND LIFE**,

These are crucial time in which we live! Our November 8 local, state, and national elections will have a critical impact on our 50 states and our beloved America.

Below is a side-by-side comparison of Maryland's two Gubernatorial candidates.

NOTICE THE STARK CONTRAST

Maryland's 2 Candidates for Governor

DAN COX

COX vs. MOORE

How Do They Compare?

WES MOORE

- Lifelong Marylander, Constitutional Attorney, State Delegate, and father of 10 children with his wife Valerie of 25 years
- Will restore freedom to the Free State and ensure children, careers, and community safety are once again protected in Maryland
- Will end **critical race theory** and transgender indoctrination in schools
- Will fund the police, restore quasi-immunity, end the sanctuary state, and establish law & order in Baltimore City
- Will reduce inflationary taxation immediately through property tax "constant dollar" assessments
- Will end the health mandates. No jobs for jobs nor mask mandate

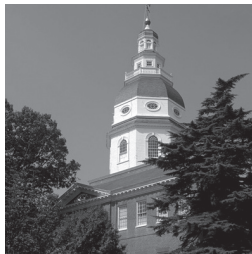

- Claims to be from Baltimore City, but is not, and profited \$1 million annually from a non-profit poverty fund
- Has promised more lockdowns, mandates, indoctrination of children, and will continue the war on police & increased taxation via a Carbon Tax
- Promises to indoctrinate students in Pre-K through grade 12 in schools behind parents' backs
- Profited in book sales from a fallen police officer, will continue sanctuary state policies and targeting of police
- Will continue Biden's failed economic policies with increased regulation and taxation
- Requires experimental vaccine and vaccine passport to attend his events

The Amazing Bishop Joseph Coffey has Moved to Philadelphia

Here are several examples of what Bishop Joe did for us in Baltimore in **2** short years:

- In March 2020, during the early days of **COVID**, we prayed all **20** Mysteries of the Rosary on the steps of the Basilica of the National Shrine of the Immaculate Conception in Washington, D.C., which was then closed **tighter than a drum**. Who came to join us? None other than Bishop Coffey!

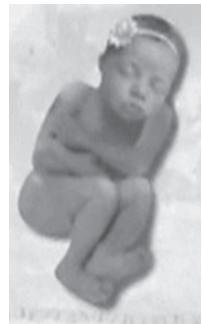

- In April 2020, we had a rally at the State House in Annapolis protesting to Governor Larry Hogan that, while virtually everything was closed in Maryland, **the abortion mills were still open!** When told by the Chief of the Capitol Police that we could not come **without a permit**, we told them, **Guess what, we are coming anyway**. And who was our main speaker? None other than the fearless Bishop Coffey!

- He was the main Celebrant at a Funeral Mass for **33 week Aborted Baby Philomena Grace at Christ the King Church in Towson, Maryland**.

- He spoke numerous other times for us and other PRO-LIFE groups. One of the most memorable talks was at Holy Redeemer Church in Kensington, Maryland. It had been arranged by long-time **PRO-LIFE** activist Larry Grayson. Larry found out that one of Bishop Joe's sisters was passing through while traveling back to her home in Naples, Florida. She came, hid off to the side, and surprised her brother with her presence.

- But here is **easily** my most memorable recollection of the 2 years Bishop Coffey spent with us. A dear, dear friend who was a convert herself, had a younger brother who was an **agnostic** and was dying of terminal cancer in a Baltimore hospital. She called Bishop Joe to see if he could possibly come and anoint her dying brother. Bishop Joe was in New Jersey on his way to visit friends. He immediately turned around, drove 2 hours through Delaware and then to Baltimore, anointed this man, and gave him conditional Baptism. **Saving an immortal soul was much more important than his planned visit**. He arrived at the hospital at 6pm that evening. The following morning at 6am the brother of my dear friend went to his Eternal Reward.

Even though Bishop Coffey has left the Baltimore area, let it be known that we are just loaning him temporarily to our great **PRO-LIFE** friends in Philadelphia. But seriously, for now he will be living at St. Colman's Church in Ardmore, Pennsylvania, near many of his siblings, nieces, nephews and lifelong friends. **The Church is in such dire need of more fearless Bishops like Bishop Joseph Coffey.**

Book Review

The Real Anthony Fauci: Bill Gates, Big Pharma and the Global War on Democracy and Public Health Written By Robert F. Kennedy Jr.

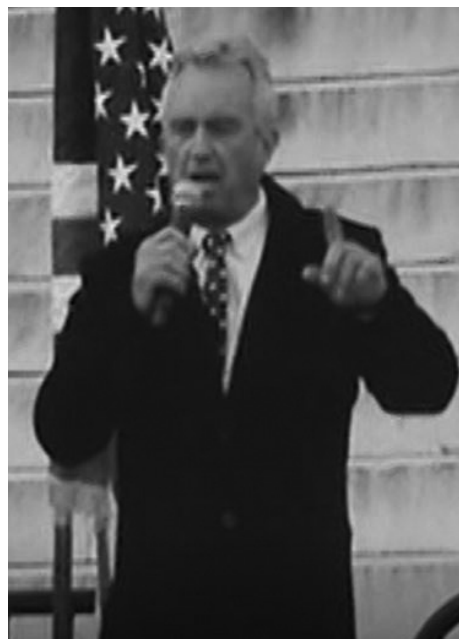

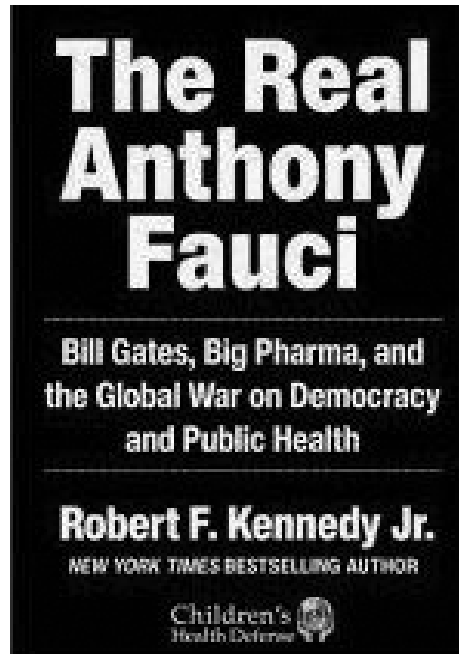

by Carl Jackson

“The Real Anthony Fauci”, written by Robert F. Kennedy, Jr. has sold more than one million copies since it was published on November 16, 2021. It is #1 on Amazon, and a USA Today, Wall Street Journal, New York Times and Publishers Weekly National Bestseller.

Robert F. Kennedy, Jr. is the son of slain presidential candidate Robert F. Kennedy, Sr. and the nephew of President John F. Kennedy. He is a highly successful attorney and author. He is the chairman of the board and legal advisor for Children’s Health Defense. Mr. Kennedy is recognized as a strong defender of children’s health and the environment. He was named one of the “Heroes for the Planet” by Time magazine, for his efforts helping Riverkeeper fight to clean up the Hudson river. He has also been credited for his role in the monumental triumph against corporate giants Monsanto and DuPont (revealed in the 2019 movie Dark Waters).

The Real Anthony Fauci is a must read by every adult. It is one of the most important books you will ever read. It is a very difficult book to read because it will make you angry and feel betrayed by the government agencies that were put in place to safeguard the health of the American people.

It is clear that Robert F. Kennedy, Jr.’s book was written by a lawyer. This 480-page indictment of Anthony Fauci, Bill

RFKJr speaking at an anti-vax-mandate rally in Jan 2022

Gates, Big Pharma and the Global Health Organizations contains 2154 footnotes (in 40 pages), backing up every accusation. It comes as

no surprise that Anthony Fauci has announced his resignation as Director of National Institute of Allergy and Infectious Diseases (NIAID), just 8 months after the release of “The Real Anthony Fauci”, a position he has held since 1984.

National Day of Remembrance

On Saturday September 10, 2022, churches all over the country commemorated the National Day of Remembrance for Aborted Babies. I attended two such services at Catholic parishes in Towson MD.

The earlier one occurred at Immaculate Conception Church, following the 8:30 am Mass. Approximately 50 people were in attendance, as we gathered around a plaque to the unborn just outside the entrance for the church's adoration chapel. The parish prolife leader, Marci Towle, gave a presentation before Father Jeremy Smith led us in prayer. Expressing thanks for the overturn of Roe, she

mentioned that all must become active. She suggested participation in the upcoming 40 Days for Life campaign. She mentioned some existing local abortuaries, plus a new one to open at 1212 York Road in Towson, stating that these would be ideal sites for a 40 Days presence.

After that, I headed to nearby Christ the King parish, where Baby Philomena Grace is buried. More about that little girl can be read at Philomenagrace.org. Approximately 30 were in attendance and we prayed the Joyful Mysteries of the Rosary at the memorial to Philomena Grace and her aborted compatriots. Jack

Ames and Missy Smith led the proceedings. They both gave a brief synopsis of the status of Leroy Carhart and legal actions being taken against him. One important point they made, and one made in previous issues of this newsletter, is that the Mass is a powerful force. That is why so many Masses were

said outside of Leroy Carhart's Bethesda facility. I happen to be aware of several Masses said at his former Germantown facility. The owners of a business next to his Germantown mill are devout Catholics and they had several Masses said in their office, up against the wall dividing their suite

from Carhart's. I don't think there were 50 of these Masses as there were by Carhart's Bethesda killing place.

As noted at the top, many of these memorial services happened throughout the country, mostly at Catholic venues but some Protestant as well.

BOOK REVIEW, from page 8

(HCQ) and other treatments were vilified by Fauci because they posed a threat Dr. Fauci and Bill Gates \$48 billion COVID vaccine project. The only treatment allowed by Fauci was a failed Ebola drug, the highly toxic drug remdesivir, in which Gates had a large stake.

Kennedy also covers many other over-hyped pandemics including swine flu, bird flu, Zika, Ebola, Mad Cow disease, etc, that were overly exaggerated epidemiological failures. Mr. Kennedy dedicates a large portion of "The Real Anthony Fauci" to Anthony Fauci's obsession with vaccines during his 56 years at NIAID, beginning with his 40-year quest for an HIV vaccine. There is an obvious parallel between Fauci's handling of the AIDS crisis and how he mismanaged the COVID-19 pandemic.

The book details how Fauci aided Burroughs Wellcome, a pharmaceutical company that

wanted to get approval for AZT for the treatment of HIV/AIDS. The drug has been discarded by its inventor because of its toxicity. Just like HCQ and other COVID-19 treatments, Fauci refused to test any other promising AIDS drugs.

Robert F. Kennedy, Jr. in chapter 7 (DR. FAUCI, MR. HYDE: NIAID'S BARBARIC AND ILLEGAL EXPERIMENTS ON CHILRED), details how Fauci had

**"Dr. Fauci led an effort
to deliberately derail
America's access to
lifesaving drugs and
medicines**

researchers test AZT on children who were in the care of the State of New York and in other countries. Those children who refused to the drugs were held down and forced AZT. A whistleblower detailed those who continuously refused had a tube surgically put into their stomachs. Fauci eventually managed to get AZT approved for treatment of AIDS, which it is

estimated that it killed 300,000 AIDS patients.

Anthony Fauci then focused his attention on producing an AIDS/HIV vaccine. The book tells of a meeting between Anthony Fauci and Bill Gates at the Gates mansion, where they agreed to join forces. Through Fauci's influence with the CDC, FDA, NIH and NIAID and Bill Gates, large donations to the World Health Organization (WHO) by the Bill and Melinda Gates Foundation, they began to administer experimental AIDS vaccines in Africa and other third world countries, leaving a wake of injuries and deaths in their paths. According to Kennedy, as much as \$1 trillion in taxpayer money has been spent in 40 years with no AIDS vaccine being produced.

"The Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health" is hopefully a wake-up call for the American public. Anthony Fauci, Bill Gates and Big Pharma have been portrayed by major media outlets as the saviors of the free world. Robert F. Kennedy, Jr's book provides the disgusting truth about Fauci, Gates and Big Pharma.
